

Fall is here, winter will be here, and the holidays will soon follow! How fast the years moves on and Eaglexit moves on also. There have been so many new developments that is seems over whelming. If you have been working at this for years, it can seem daunting at times. The ebb and flow of progress can be defeating. I am here to tell you this month we made huge progress. The outpouring of support made it possible. We just want to say thank you to all those serving this cause in all capacities. Thanks for keeping the dream alive!

I am so very proud of the hard-working volunteers that have completed a draft of the Petition and Charter. Our lawyer is working very closely with us on completing the legal brief required in the petition. We want to have a solid document that will gain us favorable review by a the Local Boundary Commission (LBC). With these in hand, we will be taking the petition and charter to the public.

Presenting the petition and the charter to the public will be a monumental step towards giving the citizens of Assembly District 2(AD2) a clear choice. Before this happens we continue to work with legal staff to make sure our petition will be successful. This may take a couple more months, but our board believes that the more thorough the petition and charter are the more successful we will be in gaining our independence.

The communities support for our wine tasting fundraiser was amazing. It will allow us to continue our work and move forward. The support motivates our volunteers to keep working on giving our citizens the opportunity to vote whether to let Anchorage rule our communities or give our communities their own governance. A government that truly is representative of our communities. A government made of representatives from our local communities making local choices about our roads, parks, businesses, public safety. Most importantly, WE want our communities to control our own education system in AD2.

This process of writing a petition, including a charter and legal brief. Turning the petition into the LBC for review and getting their approval of content will allow us to take a completed document to the public. Then we will start collecting signature required by the LBC. When signatures are completed, we will turn in petition with signatures to the LBC for analysis and judgment. If they approve the petition the question will be taken to the Citizens of AD2 ONLY with vote in an election governed by the LBC.

Please consider supporting the creation of the next new borough in Alaska. As anticipated by our founders, when communities grow and are ready to become independent, it is right that they do so. ***It takes all of us!***
